Get a complete PDF solution for every desktop

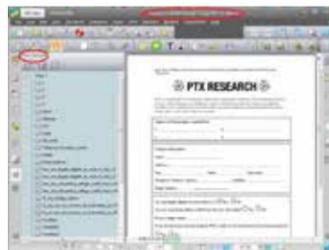

Designed specifically for the business user, eCopy PDF Pro Office is the most complete desktop PDF solution available today – whether it's used as a companion to eCopy ShareScan or as a powerful, stand-alone PDF software tool. Intelligent and easy to use, eCopy PDF Pro Office puts advanced PDF, forms and mark-up capabilities just a click away.

Instantly create industry-standard, universally viewable PDF files, including all PDF and PDF/A versions, from any PC application, convert to PDF from within Microsoft Office documents or create PDF files from any document with a single click while browsing with Windows.

eCopy PDF Pro Office provides the most accurate conversion of PDF files into editable, searchable XPS, Corel WordPerfect and Microsoft Word, Excel or PowerPoint documents – complete with fully-formatted text, columns, tables and graphics. It even lets you combine all pages of a PDF document into a single Excel worksheet.

With eCopy PDF Pro, you can combine files and remove or replace pages with drag-and-drop ease. You can view and select pages from a source document – Word, Excel, PowerPoint, WordPerfect, XPS, JPG, BMP or TIF – to insert into a target document for fast, simple document assembly.

Users across the enterprise can collaborate more effectively with annotation tools that let you add notes, stamps, call-outs, and more, to PDF documents. Plus, it's easy to view, organise, prioritise and update comments using the convenient Comment Panel.

A fillable PDF form created by FormTyper

Fill and save PDF forms

Use FormTyper to convert static forms into fillable PDF forms that you can complete, save and email.

Scan directly to PDF

Get one-click scanning to PDF by pre-setting your scanner preferences. Scan and highlight, cross-out, underline, or redact – all in a single step.

Manage multi-layer graphics

View, select, merge and flatten layers created by programs like AutoCAD and Microsoft Visio.

Bring multimedia to PDF

Embed Adobe Flash and Microsoft Silverlight into PDF files to create attention-grabbing multimedia documents – quickly and easily.

Protect sensitive files

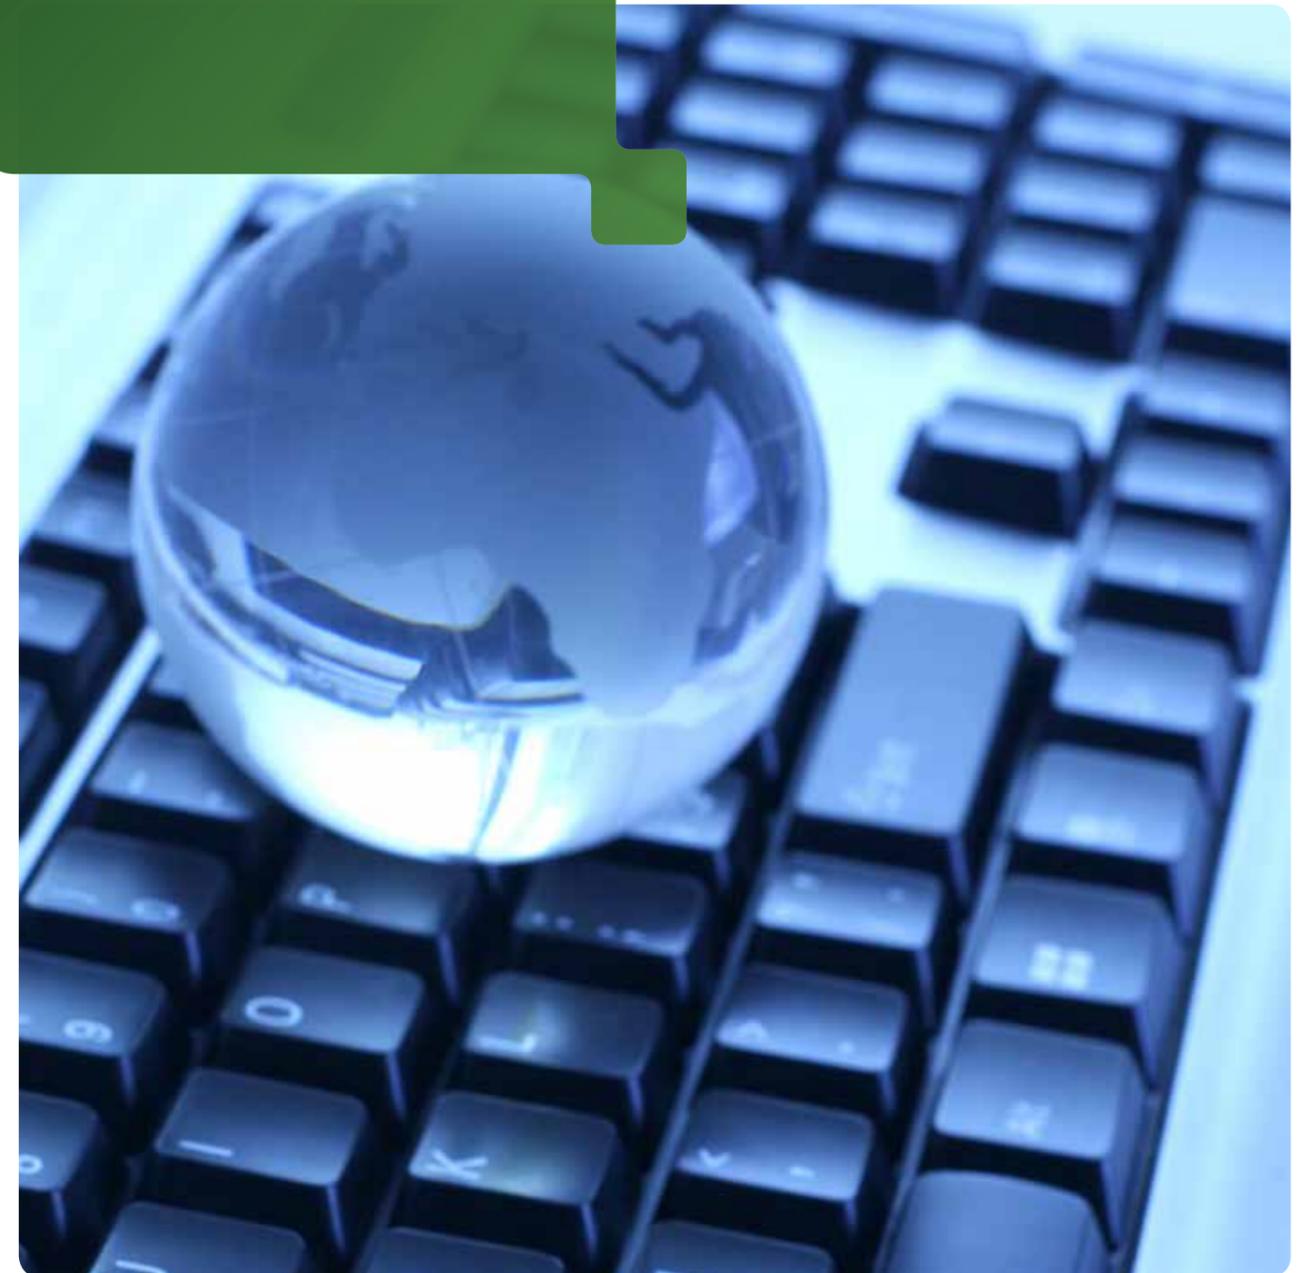

Control viewing, printing and modifications by adding passwords with secure encryption and permission controls to PDF documents. Or flatten everything in a document to protect sensitive information during sharing and archival.

Nuance eCopy PDF Pro Office

The smarter PDF desktop software companion to multifunction devices

Turn paper
into PDF
with ease

In today's fast-paced business environment, professionals don't want to waste time and money struggling with document format incompatibility or manually reproducing documents in alternate formats. After all, document inefficiencies have a significant impact on productivity and profits.

While most offices are equipped with one or more multifunction devices (MFDs), they don't necessarily have the right software needed to create and work with PDF files. With Nuance eCopy PDF Pro Office, your business will have everything it needs to create, edit and mark-up PDFs to the highest industry standard.

Intelligent and easy to use software

Uncompromising value

There are many software companion products to MFDs that can create PDF files. There are some that can create imposition files for production print jobs, and a few can even automatically redact scanned documents. But only eCopy PDF Pro Office enables users to perform all these tasks, and more, using a single, lightweight software package. eCopy PDF Pro Office enables business professionals to:

- Create, edit and mark up industry-standard PDF files
- Convert PDF files to and from Office formats
- Redact and highlight automatically with Advanced Search
- Sign documents electronically
- Compare document versions automatically
- Convert and create forms
- Connect with popular Enterprise Content Management solutions, such as Laserfiche
- Connect with popular cloud storage solutions such as Dropbox, Evernote, SharePoint or Google Docs

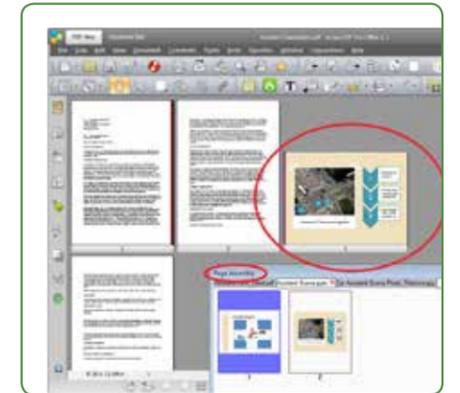

Plus, eCopy PDF Pro Office is the only PDF desktop software solution that's integrated with eCopy ShareScan, the leading MFD scanning and OCR solution, to deliver the most streamlined experience when scanning from a networked MFD to your desktop.

Produce impressive documents that mean business

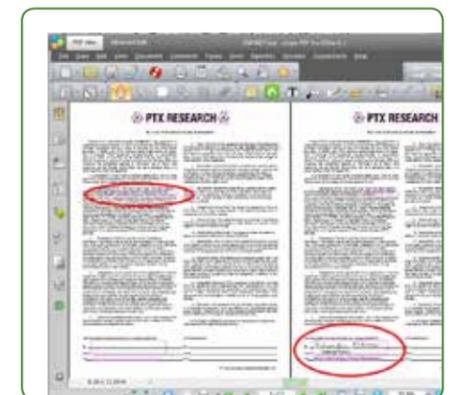

eCopy PDF Pro Office enables you to deliver documents that look as good in print as they do on the screen – no matter where you send them. Combine any type of file and/or folder into striking PDF Portfolios that are viewable with any popular PDF reader. Add attractive, interactive cover pages that guide the audience. Even include photos, graphics, movies, audio or 3D drawings to convey messages with attention-grabbing style!

Rapid enterprise deployment for low cost of ownership

eCopy PDF Pro Office is fast and easy to install too. You can conveniently service all enterprise users with network push install and software access options through virtualised software environments.

Drag and drop pages from different source documents to combine into your target document.

Scan two hard-copy documents and eCopy PDF Pro Office will highlight the changes in the revised document.

Create, convert and collaborate like never before for dramatic productivity gains and cost savings.
